

Because of overexposure to carcinogenic supstance PAH (Polycyclic aromatic hydrocarbons) you are sick and cant continue oil cleanup or territorial expansion of protected arias untill you get better. You cant countinue the game untill you get 5 or 6 on dicethrow.

Look at all those poor animals... They are in danger of hypo-thermia, and starvation you must help them! If you get 5 or 6 you have hepled them on time and turned the pollution site into conservation site (the field is yours) but if you are unsucesfull this territory belongs to the Oil Tsar.

Fun fact hair absorbs oil, so it can be used as a means to clean up oily beaches...Not so fun fact, to collect and process hair into oil soaking mats you need time and you just run out of the mats! So you will lose some time collecting new hair .. You cant countinue the game untill you get 5 or 6 on dicethrow.

Methane from fumes can suffocate sea lie and create dead zones where oxigen is depleted. Because of this there has been a massive dieoff of animals. You must collect the carcases and dispose of them in ecological manner. If you get 5 or 6 you have collected them on time and turned the pollution site into conservation site (the field is yours) but if you are unsucesfull this territory belongs to the Oil Tsar.

Today another law will come into place that enables off shore drilling. As a concerned citisen you will stop to protest it! If you get 5 or 6 you have stopped the law and turned this field into conservation site (the field is yours) but if you are unsucesfull this territory belongs to the Oil Tsar.

A massive oil spill and civil lawsuit has treatened your buisness. But you can fight it!If you get 5 or 6 you have payed enough lobbyist to make this problem go away (the field is yours) but if you are unsucesfull this territory belongs to the Nature conservationist.

Today another law will come into place that enables off shore drilling. You must ensure that the law passes by any means possible! If you get 5 or 6 you have enabled the law and turned this field into an oilfield (the field is yours) but if you are unsucesfull this territory belongs to the Nature conserva-tionist.

Your stock has dropped because of a international sex scandall involving one of your managing directors. You must do everything in your power to not lose money. If you get 5 or 6 your managing tactics have been a sucess, but if you dont you must sell the stock of this field to nature conserva-tionist! If you dont get 5 or 6 you lose the field and it becomes Nature conservationist.

Your business partner is blackmailing you with knowledge of uneticall business tactiks. You must wait two turns and try to convince him not to leak the secrets. (wait two turns and then continue the game).

There has been an attempt of hostile takeover of the company and you must stop it. If you get 5 or 6 you have stopped it but if not you have to pause with the game until you get 5 or 6 on dice throw.

**ID:
Lithuanian
conservationists**

id description:
You are a biologist, nature conservationist and activist. You protect the nature reserve under the UNESCO World Heritage site of the Curonian Spit.

mission:
Your goal is to expand the territory under state protection (National Park) clear up oil spills, dismantle oil platforms and stop the potential building of new ones.

METHODS OF ATTACK

Attacking oil spill:

1. Protest ///
you succeed if you get 2, 4 or 6 the field is conditionally yours* for 2 rounds you profit.**
2. Mayor civil unrest ///
you succeed if you get 4 or 6 and the field is conditionally yours* for 3 rounds you profit.**
3. Law change ///
you can claim a territory and if you get 6 it is conditionally yours*.

conditionally yours* your opponent can defend from all of this attacks on his territory by throwing 2,4 or 6. If he succeeds he has defended it and its not yours.
Profit** is made from collecting tourism money.

Economy:

You can earn income on your territory from tourism by getting 2,4 or6.
Each succesfull dice throw gives you 10 dollars.
Every 500 dollars in amber gives you one more number on dice (the number 1) and helps your chances, or can be used to build a new Nature conservation center.
